PROFESSOR PATRICK C. WALSH

University Distinguished Service Professor of Urology
 Johns Hopkins Medical Institutions
 2007 KFP in Medicine Laureate

Best known for his pioneering work in the development of “the anatomic approach to radical prostatectomy”, which involves nerve-sparing techniques that have reduced the probability of impotence and incontinence, and for his 30 years as the Professor and Director of the Brady Urological Institute. He has also made major contributions to the basic understanding of benign and malignant neoplasms of the prostate.
