

Acceptance Speech by Professor  
**Allen J. Bard**  
2019 Co-Laureate of the King Faisal Prize  
in Science  
41<sup>st</sup> KFP Awards Ceremony  
Sunday 24/03/2016(17/07/1440H.)

I am honored to receive the very prestigious King Faisal Award and I am happy to accept it. It is wonderful to be given such an award for working on something I so enjoy doing. Much of the work I am recognized for has been worked on by graduate students and postdoctoral fellows who deserve much of the credit. I especially would like to recognize my colleague Fu-Ren Frank Fan who expertly assisted me for many years. I would like to thank my family for their support over the years and also my colleague, Cynthia Zoski, who assists me now and who is accompanying me to this grand occasion.
